

SECTION 1: CHEMICAL PRODUCT and COMPANY IDENTIFICATIONCatalog No.
L05871

Product Name: **Trimethylolpropane phosphite, 98%**
Synonyms: 4-Ethyl-2,6,7-trioxa-1-phosphabicyclo[2.2.2]octane

Manufacturer/Supplier Name: Alfa Aesar - A Johnson Matthey Company
Address: 30 Bond St.
Ward Hill, MA 01835

Business Phone: 978-521-6300
Business Fax: 978-521-6350

For information in North America, call: 978-521-6300

CHEMTREC Numbers:

For emergencies in the US, call CHEMTREC: 800-424-9300
For emergencies outside US, call INTERNATIONAL: (703)527-3887
For Nonemergency, call: (800)262-8200

[To Top of page](#)**SECTION 2 : COMPOSITION, INFORMATION ON INGREDIENTS**

Catalog No. L05871

Chemical Name Trimethylolpropane phosphite
CAS# 824-11-3
% Weight (Typical) 98

[To Top of page](#)**SECTION 3 : HAZARDS IDENTIFICATION**

Catalog No. L05871

Emergency Overview: Highly toxic.

Trimethylolpropane phosphite:

Route of Exposure: Skin. Inhalation. Ingestion.
Potential Health Effects:

Eye Contact: No data
Skin Contact: Toxic.
Inhalation: Expected to be very toxic by inhalation.
Ingestion: Highly toxic by ingestion.
Target Organs: Skin. Respiratory system. G.I. Tract.

Signs/Symptoms: Extremely toxic substance which can cause human clonic-tonic convulsions and death.

SECTION 4 : FIRST AID MEASURES

Catalog No. L05871

Eye Contact:	Immediately flush eyes with plenty of water for at least 20 minutes. Assure adequate flushing of the eyes by separating the eyelids with fingers. Get immediate medical attention if irritation persists, or symptoms of overexposure become apparent.
Skin Contact:	Immediately wash skin with plenty of water for at least 20 minutes, while removing contaminated clothing and shoes. Get medical attention especially, if irritation develops, persists, or symptoms of overexposure become apparent.
Inhalation:	Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Keep warm. Get immediate medical attention.
Ingestion:	If swallowed, call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting unless instructed by medical personnel. Get medical attention.

SECTION 5 : FIRE FIGHTING MEASURES

Catalog No. L05871

Flash Point:	No data
Extinguishing Media:	Use dry powder or carbon dioxide when fighting a fire involving this material.
Unsuitable Media:	Water extinguishers are not recommended.
Protective Equipment:	As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

[To Top of page](#)

SECTION 6 : ACCIDENTAL RELEASE MEASURES

Catalog No. L05871

Personal Precautions:	Use proper personal protective equipment as listed in section 8.
Spill Cleanup Measures:	Clean up spills immediately, observing precautions in the Protective Equipment section. Sweep up or absorb material, then place into a suitable clean, dry, closed container. Avoid generating dusty conditions. Refer to section 13 for disposal requirements.
Environmental Precautions:	Do not allow material to enter drains or streams.

[To Top of page](#)

SECTION 7 : HANDLING and STORAGE

Catalog No. L05871

Handling:	This product should be handled only by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals, who should take into account the fire, health and chemical hazard data. It should always be handled in an efficient fume hood or equivalent system. The user should consider that the toxicological and physiological properties of many compounds are not yet well determined and that new hazardous products may arise from reactions between chemicals. Care should be taken to prevent any chemical from coming into contact with the skin or eyes and from contaminating personal clothing.
Storage:	Store in a cool, dry, well ventilated area away from sources of heat and incompatible substances. Keep container tightly closed when not in use. Product is air sensitive.
Hygiene Practices:	Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling dust.

SECTION 8 : EXPOSURE CONTROLS, PERSONAL PROTECTIONCatalog No. L05871

Engineering Controls:	Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.
Skin Protection Description:	Wear suitable protective clothing to prevent contact with skin.
Hand Protection Description:	Wear appropriate protective gloves. Consult glove manufacturers for glove permeability data.
Eye/Face Protection:	Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.
Respiratory Protection:	A NIOSH approved air-purifying respirator with an appropriate cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited to airborne concentrations that are typically within 10 times the exposure limit. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator use.
Other Protective:	Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

SECTION 9 : PHYSICAL and CHEMICAL PROPERTIESCatalog No. L05871

Physical State/Appearance:	Solid
Color:	White
Flash Point:	No data
Boiling Point:	98-100°C (208.4-212°F) /2mm
Melting Point:	54-56°C (129.2-132.8°F)
Density:	No data
Molecular Formula:	C ₆ H ₁₁ O ₃ P
Molecular Weight:	162.13

[To Top of page](#)

SECTION 10 : STABILITY and REACTIVITYCatalog No. L05871

Conditions to Avoid:	High temperatures, flames and sparks.
Incompatibilities with Other Materials:	Oxidizing agents. Air.
Possible Decomposition Product:	Carbon monoxide. Phosphorus pentoxide, phosphoric acid.

SECTION 11 : TOXICOLOGICAL INFORMATIONCatalog No. L05871

Trimethylolpropane phosphite :

RTECS Number:	TY6650000
Eye Effect:	No data reported in the cited references as of the revision date.
Skin Effects:	Skin - rat LD50: 929 mg/kg (RTECS). Skin - mouse LD50: 4 mg/kg (RTECS)
Ingestion Effects:	Oral - rat LD50: 8390 ug/kg [Behavioral - convulsions or effect on seizure threshold] (RTECS); Oral - mouse LD50: 3320 ug/kg [Behavioral - convulsions or effect on seizure threshold] (RTECS); Oral - rabbit LD50: 50 mg/kg [Behavioral - convulsions or effect on seizure threshold] (RTECS); Oral - guinea pig LD50: 20 mg/kg [Behavioral - convulsions or effect on seizure threshold] (RTECS)
Inhalation Effects:	Inhalation - rat LCLo: 10 ppm/4H [Behavioral - tremor Behavioral - convulsions or effect on seizure threshold] (RTECS)
Other Toxicological Information:	Intraperitoneal - rat LD50: 1020 ug/kg Behavioral - convulsions or effect on seizure threshold; Intraperitoneal - mouse LD50: 1100 ug/kg; Intravenous - mouse LDLo: 1 mg/kg Behavioral - somnolence (general depressed activity) Lungs, Thorax, or Respiration - dyspnea Gastrointestinal - changes in structure or function of salivary glands

SECTION 12 : ECOLOGICAL INFORMATIONCatalog No. L05871

Ecotoxicity:	No information provided.
Bioaccumulation:	No information provided.
Biodegradation:	No information provided.
Environmental Stability:	No information provided.

SECTION 13 : DISPOSAL CONSIDERATIONSCatalog No. L05871

Waste Disposal:	Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines, by a licensed disposal company.

SECTION 14 : TRANSPORT INFORMATIONCatalog No. L05871

DOT Shipping Name:	Organophosphorus compound, toxic n.o.s.
DOT Hazard Class:	6.1
DOT Identification Number:	UN3278
DOT Packing Group:	III
DOT Subpart E Labeling Requirement:	6.1

Trimethylolpropane phosphite :

TSCA 8(b): Inventory Status: Listed on the TSCA inventory.

Risk Phrases: R26/27/28 Very toxic by inhalation, in contact with skin and if swallowed.

Safety Phrase: S28 After contact with skin, wash immediately with plenty of water
S36/37 Wear suitable protective clothing and gloves.
S45 In case of accident or if you feel unwell, seek medical advice immediately

MSDS Preparation Date: January 1, 2002, Version 1

MSDS Revision Date: April 14, 2003.

MSDS Author: Actio Corporation.

Disclaimer:

This Health and Safety Information is correct to the best of our knowledge and belief at the date of its publication but we cannot accept liability for any loss, injury or damage which may result from its use. We shall ensure, so far as is reasonably practicable, that any revision of this Data Sheet is sent to all customers to whom we have directly supplied this substance, but must point out that it is the responsibility of any intermediate supplier to ensure that such revision is passed to the ultimate user. The information given in the Data Sheet is designed only as a guidance for safe handling, storage and the use of the substance. It is not a specification nor does it guarantee any specific properties. All chemicals should be handled only by competent personnel, within a controlled environment. Should further information be required, this can be obtained through the sales office whose address is at the top of this data sheet. We welcome any additional information about our products that customers have obtained by personal experience.
